## Product Manual

## WARNING

--When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the hairdryer is switched off.

--For additional protection, the installation of a residual current device (RCD) having a rated residual operating current not exceeding 30 mA is advisable in the electrical circuit supplying the bathroom. Ask your installer for advice.

--WARNING Do not use this appliance near bathtubs, showers, basins or other vessels containing water.

--Burn hazard. Keep appliance out of reach from young children, particularly during use and cool down.

--When the appliance is connected to the power supply, never leave it unattended.

--Always place the appliance with the stand, if any, on a heat-resistant, stable flat surface.

--If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
